Field Trip: Harford Springs Reserve
Saturday, April 1, 2017
9:00 am to Noon

Enjoy a wildflower hike led by Teresa Salvato of the UC Riverside Herbarium

Come enjoy the spring wildflowers at Harford Springs Reserve. Harford Springs Reserve is a 325-acre wildland park located in the Gavilan Hills between Riverside, Perris, Lake Elsinore and Corona, near Lake Mathews. The Park includes a large area of cismontane juniper woodland, a unique clay soil grassland flora, alkali meadow, chaparral, and other plant communities.

There are several sensitive plant species as well as colorful displays of common annuals. Join us to look for chocolate lilies, the federally listed Munz’s onion, and many remarkable plant species.

Meet at park parking lot, 21630 Gavilan Road, Gavilan Hills
9:00 am on Saturday, April 1, 2017
Bring lunch, plenty of water, and a spirit of exploration!

Directions: From Gavilan Road intersection with Cajalco Road: Head south on Gavilan Road. After about 2 miles, there will be a mobile home on the left and parking.

To get to Gavilan Road and Cajalco Road intersection:
From 91 freeway, Riverside: Take La Sierra Ave. exit and head south past Lake Mathews, then take a left (east) on Cajalco Road. After about 6 miles, turn right on Gavilan Road.
From the 215 freeway, south of Riverside: Take the Cajalco Rd. exit and head west on Cajalco Road about 7 mi. and turn left on Gavilan Road (before L. Mathews).
From the 15 freeway from south Corona: take Cajalco Road exit and head east about 9 mi. to Gavilan Road. Turn right on Gavilan Road.
